

Helpful to achieving the objective		Hamper achieving the objective
Internal origin (attributes of the system)	<p>Strengths</p> <ol style="list-style-type: none"> 1. Programming in Python and Statistical Analysis in R 2. Cloud Engineering using known best practices and tailored for a given use case 3. Using a mixture of Robotic Process Automation and Generative AI to automate business processes 	<p>Weaknesses/Areas for further development</p> <ol style="list-style-type: none"> 1. Aim to do too much and sometimes lack of time management to finalise tasks 2. Creating visibility for my achieved results and fulfilled objectives 3. Currently lacking leadership experience at the project level or higher, only leadership experience at the task level
	<p>Opportunities</p> <ol style="list-style-type: none"> 1. Work as Consultant for a Big 4 Consulting firm, which enables a fast career process 2. Opportunity to hold speeches on using technology to automate compliance and other business processes at several occasions 3. Ability to apply learned concepts in a real-world setting at customer projects 	<p>Threats</p> <ol style="list-style-type: none"> 1. Generative AI might in the future lead to a reduction of Data Science opportunities as several parts of the general job profile of a Data Scientist can be done by AI (e.g., coding) 2. Working in consulting is sometimes stressful and together with this master's degree sometimes leads to a lack of work-life-balance 3. The M.Sc. in Data Science might in some areas be too theoretical to provide a direct benefit in my job
